

Dental Laboratory and Surgery Materials

****KEMDENT PRESS RELEASE** For IDEM**

You really need to ask about Modelling Wax at IDEM 2018

Find out why Kemdent products are valued around the world, visit Kemdent's stand at IDEM 2018, Stand 6D-09, UK Pavilion and talk to our qualified sales team about Kemdent's high quality UK manufactured products available at competitive prices. At IDEM, Kemdent will be showcasing our range of Dental Laboratory and Dental Surgery products.

Kemdent modelling waxes are known throughout the world as the finest available. Kemdent's leading range of precisely graded and controlled **dental modelling wax** are designed to suit the most efficient working techniques and local climatic conditions. We offer a range of waxes, which are different in colour and softening temperatures.

Ask for a quote on Kemdent products including wax based products, heat cure and cold cure denture base acrylics, Kemdent's safe alcohol free/ alcohol based cross infection control and cleaner range, the Diamond glass ionomer cement range, bite registration materials and much more, all designed with the Dental Technician or Dental Surgery in mind.
