IDEM Singapore – International Dental Exhibition and Meeting

A Technical First at IDEM Singapore 2014

Dental Technician Forum introduced to IDEM Singapore for the first time in the bid to include entire dental team in its programme offerings

For the first time the International Dental Exhibition and Meeting (IDEM) 2014 will include a Dental Technician Forum, organised in collaboration with Centre for Advanced Professional (CAPP), as an innovative addition to the Scientific Programme, which now includes elements for the entire dental team.

Dental technicians are an important part of the dental team and play an important role in providing successful outcomes in almost in all fields of dentistry, but with the rapid advances in technology and constant innovation it can be tough for them to keep up with the latest developments.

Now for the first time, dental technicians can gain access to the latest state-of-the-art technologies at IDEM Singapore's first Dental Technician Forum. The two-day, dedicated scientific programme will include ground-breaking lectures from the industry's key opinion leaders, workshops and a trade show focused entirely on the dental laboratory profession.

The two informative and enjoyable days will give dental technicians from Asia Pacific, ASEAN, Europe and the Middle East the opportunity to hear from international speakers, network with their peers from around the world as well as share their knowledge and discuss the latest innovations in the dental technician industry.

The Dental Technician Forum at IDEM Singapore plans to provide Continued Professional Development (CPD) hours over two days outside of the laboratory with excellent networking opportunities, while creating an environment for

discussions and the exchange of valuable feedback plus the opportunity to see the latest trends and developments in systems and technologies at the product display area.

Topics to be discussed include:

1. Everything from smile design to CAD CAM
2. An aesthetic approach to material
3. Shade selection
4. CAD/CAM options for scanning, milling and 3D building of models and restorations
5. Ceramic systems, materials and their applications today
6. Implant prosthodontics - incorporating the latest implant products and techniques

Session and speaker details will be released later. Dental technicians who register for this forum are also entitled to attend the other sessions in the IDEM Singapore Scientific Conference.

IDEM Singapore is jointly organised by Koelnmesse and the Singapore Dental Association.

About IDEM Singapore

IDEM Singapore, a specialised dental trade fair accompanied by a professional congress, has developed since its premiere in 2000 into the No. 1 dental event in the Asia-Pacific region. At IDEM Singapore 2014, participants will meet key decision-makers, strengthen valuable contacts with customers and partners, and explore the potential of an exciting growth market.
